

FLEET
MANAGEMENT

Your commercial vehicle fleet specialists

Meet the experts in commercial vehicle fleet management

As a commercial enterprise, you rely on partners who understand your needs. When it comes to your commercial vehicle needs, Toyota Fleet Management (TFM) delivers a specialist capability with a dedicated team that focuses on the unique demands of your business. We cover every aspect of your vehicle acquisition and fleet management through a simple, streamlined process.

Our commercial vehicle specialists offer you

- Expert advice on vehicle selection and specification
- Extensive technical knowledge
- Expertise on legislation regarding weights and limits
- Fit-for-purpose vehicles based on your specific needs
- End-to-end management throughout a vehicle's lifecycle.

When you finance commercial vehicles through Toyota Fleet Management, you'll deal with trade-qualified heavy vehicle experts who speak your language. With our combined 45 years experience in transport, engineering and management, it's no surprise our customers include big players like Broad Spectrum and Downer EDI.

We can help you build vehicles to suit your specific requirements, from trucks to road trains. All with flexible funding options and the benefit of leveraging Toyota Fleet Management's buying power to reduce upfront costs.

A unique level of service

Toyota Fleet Management goes the extra mile for your business. We can conduct site visits to get to know how you operate, so we can provide a completely customised fleet. And all of this can be managed through one point of contact.

Our specialties include:

Vehicles:

- ✓ Light to heavy rigids/prime movers
- ✓ Buses
- ✓ Garbage compactors/tankers
- ✓ Forklifts
- ✓ Trailers
- ✓ Mini skid steer loaders.

Ancillary equipment:

- ✓ Tailgates
- ✓ Pumping equipment
- ✓ Hydraulic lifting, loading and handling systems
- ✓ Hoses and cartwheels
- ✓ Pantech bodies/trays
- ✓ Services bodies
- ✓ Refrigeration equipment
- ✓ Winches
- ✓ Tanks and elevating platforms.

Get the TFM advantage

Toyota Fleet Management has direct access to funding through our internal treasury, with credit support from our parent company, Toyota Finance. That means you can access great rates for your commercial fleet. You'll also deal with a stable company that supports you through the up and downs, with the flexibility to adapt to your changing business needs.

One Toyota – your single solution for commercial vehicles

One Toyota is the powerful combination of all the Toyota companies working together for your business – Toyota Fleet, Hino, Toyota Material Handling and Toyota Fleet Management. The ability to access a range of vehicles and assets via one point of contact is a powerful thing, and another reason why it sets us apart as a fleet management organisation.

“By leveraging TFM’s expertise in all vehicle classes, we achieve great fleet efficiencies, which contributes to our overall success. Thanks to our partnership, we’ve reduced costs and minimised the number of suppliers, giving us more time to focus on our core business operations.”
