Novated leasing

A great way to attract and retain staff

At Toyota Fleet Management (TFM), we can help you offer some of the best remuneration packages, so you can attract and retain the best people.

TFM can offer a range of tailored novated and salary packaging administrative services that free up your time to focus on your core business.

Paying an employee's lease costs from their salary offers tax and running cost savings, plus flexibility and convenience. It's an attractive option for both employers and employees.

How does it work?

A novated lease is a financial arrangement between an employee, employer and TFM. An employee can order a vehicle of their choice* and then you take responsibility for the lease payments on their behalf. It's a great way to maximise remuneration packages for your staff.

* Subject to TFM and employer acceptable goods policy.

Features:

- One monthly invoice for all novated vehicles
- Consolidated reporting to monitor novated leases
- Dedicated team of experts to support employees every step of the way
- Discounted vehicle prices and fleet management services due to TFM's buying power
- Flexible terms to suit you and your staff
- Vehicle remains with the employee if they cease employment
- Assistance with FBT reporting and management
- Optional salary packaging and payroll management services.

Benefits:

- Allows you to attract and retain valuable staff
- Adds value to an employee's remuneration package
- Helps you easily manage finances through one monthly invoice
- No impact on your balance sheet
- Gives you more time as our novated lease experts are available to assist with your queries
- Eliminates concern about the vehicle at the end of term or when an employee ceases employment.
